Furniture of America®

THIS IS FURNITURE OF AMERICA.

Do you remember the first time you bought a piece of furniture? That feeling of finally having it? That feeling that you earned this and your home needs this? That smile?
That is why Furniture of America exists. That joy that people feel when they add something to their homes, to their lives. FOA's identity is rooted in happiness and a desire to spread it wherever our furniture goes. Joy is the foundation of our products, the principle behind our environmental commitments, and the driving force behind our company culture.

OUR PRODUCTS

Why furniture? The answer is simple. Everyone uses it and it lasts a long time. We want everyone to pick FOA, and enjoy their Furniture of America products for years to come. With our wide selection we have products that are perfect for any size home. We hope that whenever someone opens FOA furniture they're filled with excitement knowing their home is about to get a little bit better. Maybe it's the dining set they wanted for months. Or the bunk bed for their kid's room. Or even a coffee table that ties the whole living room together. Each item brings something to their homes and lives.
Even with thousands of products available we want to continue evolving and bringing people the best the industry has. We continue to innovate and find new ways to improve furniture and the lives they touch. Our portfolio of patents offers unique designs, functional utilities, or increase safety and stability. One of our innovations is LED embedded furniture patent. Its widespread use throughout the industry benefits the daily lives of millions of consumers. We make all of our innovations in hopes of improving customer experiences.

OUR COMMITMENT

We believe sustainability and ecological responsibility are necessary tenets of business. Our commitment to sustainability goes beyond a minimal effort. It holds a special place in our company, and is something we consider in every decision we make. We make every effort we can to reduce our carbon footprint, to give back more than we take, and find joy in forward thinking solutions. We are committed to making FOA products using sustainably farmed lumbar. Every tree used has two trees planted to replace it. It's a simple policy that keeps our products honest. Our wood is reliably certified by the Forest Stewardship Council, a recognized standard setter for forest products. Sometimes our search for green solutions takes us to the cutting-edge of technology. We enthusiastically use environmentally progressive materials, like poly-threads made of recycled water bottles, in some of products. When you pick an FOA product, you can be happy about what it is made with and how it was made.

OUR CULTURE

A company is only as good as its people, and at FOA we are all family. Every FOA family member commits their day to making someone's life better. This passion extends to our partners and the community. We offer unparalleled customer support programs that help build our partners' business. We commit to organizations that champion community building and contribute to local causes. When we say family it means more than just a word, it's a way of thinking and connecting to each other. This is an employee-owned "family" business where everyone gets a chance to add their name to the ownership pool. We all have a voice here. We all have responsibility here. And we all share in those commitments because we know that "Together, we make life better."

Let's Connect

WEBSITE | WWW.FOAGROUP.COM

Our website is an excellent resource for all your dealer needs. With a Dealer account, you will have access to inventory, stock status, pricing, and most importantly order placement, so you can skip the phone lines and save precious time! High-resolution images and assembly instructions are also available for download. You can also access our Customer Service Form for any concerns or questions you may have.

NEWSLETTER

For those who want their news delivered to their inbox, there's the FOA Newsletter! We intermittently send out emails to our subscribers containing announcements and promotions. And we promise, we won't flood your inbox!

TESTIMONIALS | WWW.FOAGROUP.COM/TESTIMONIALS

We are proud to see many of our partners grow, and it motivates us to try even harder. We asked a few of them to share their stories and experiences with FOA.

SOCIAL MEDIA

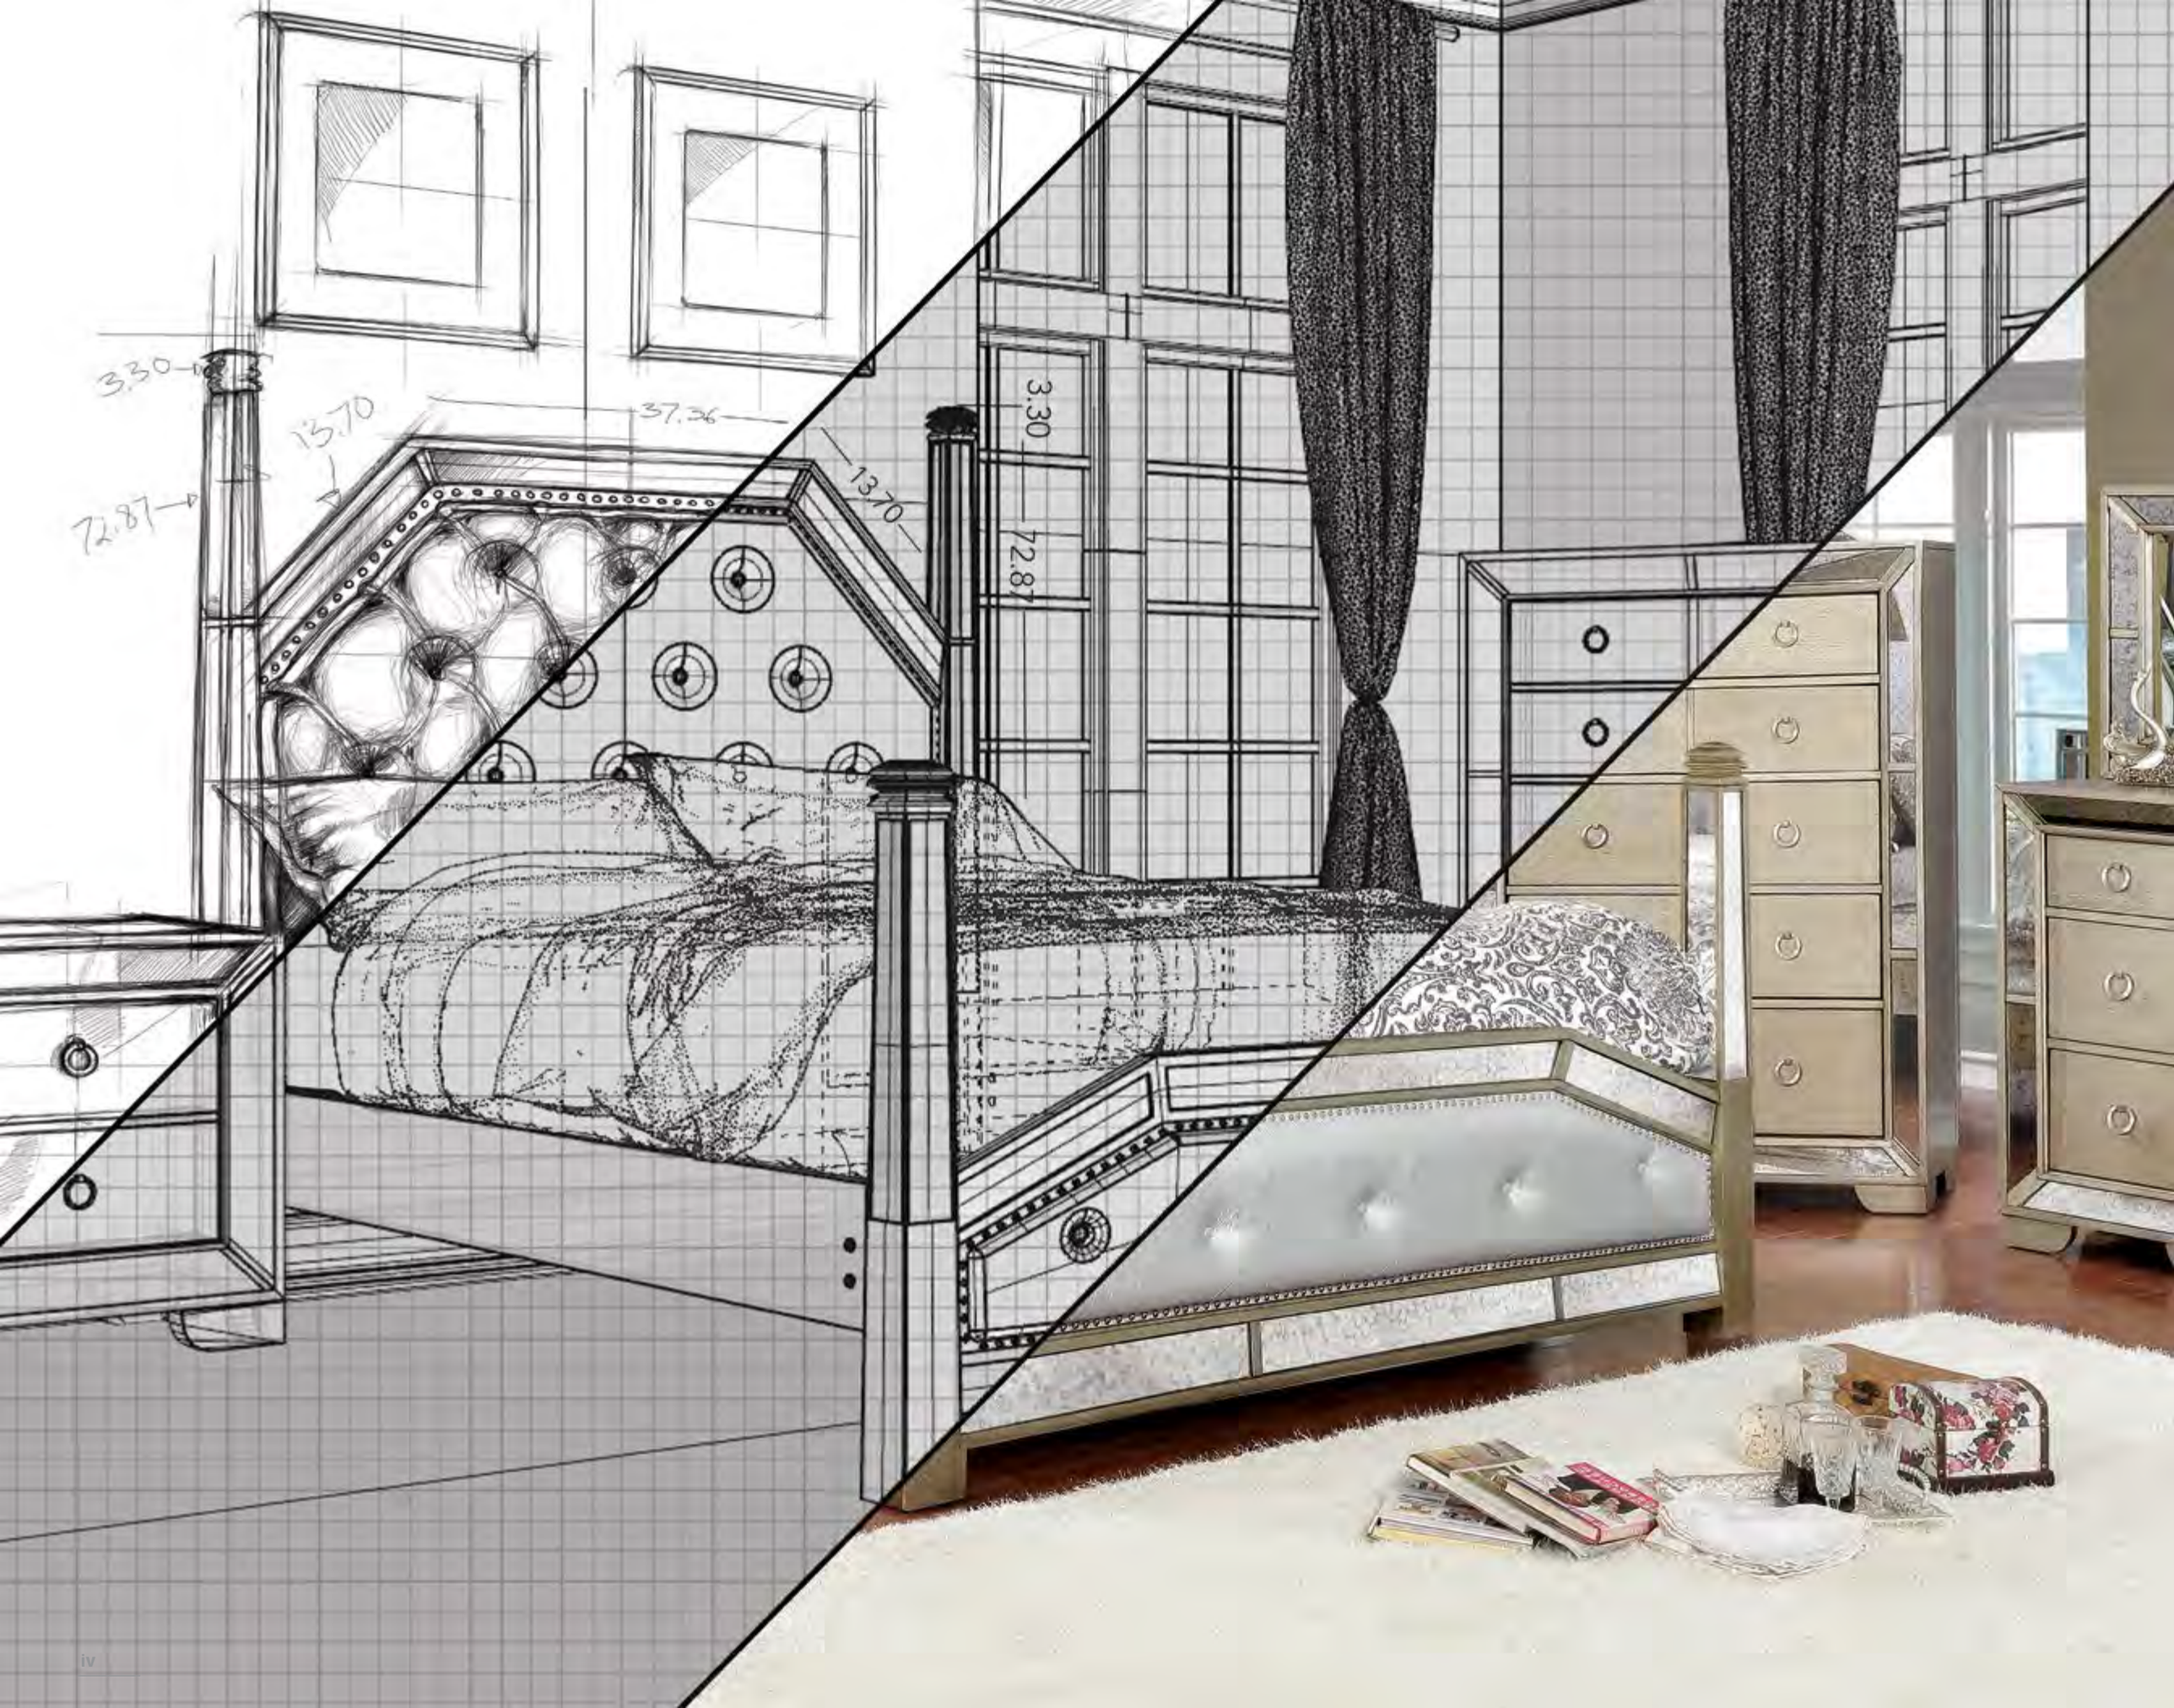

We love engaging our customers. If you and your business are active in social media, please follow us to get the most recent news, promotions, and happenings about Furniture of America. We are on Facebook, X, Instagram, Pinterest, and Youtube as FOAGROUP!

BLOG | WWW.FOAGROUP.COM/BLOG

Read about our products, industry news, and even furniture trends in the FOA blog! We have recaps of the Las Vegas and High Point Markets, company news and announcements, and articles about the latest seasonal and color trends.

AFFILIATIONS

Since our inception in 2007, our involvement in the furniture industry has significantly grown year over year. We now proudly work with industry leadership groups, and support local and national associations for humanitarian efforts. We align ourselves with organizations that share our vision of focus on people, passion, and values.

Bringing Ideas into Reality

We believe that every design should have a story. Once our inspiration is clear, we begin sketching concepts, which go through multiple reviews and development until they become digital 3D models that can be prototyped. The consumer only sees the final product in the showroom, but rest assured that we have put the time and effort of multiple teams to design the final product you are looking at.

DESIGN

Furniture design trends come and go quickly, but people's pursuit of quality of life, product functionality, and safety will never change. We keep our finger on the pulse of the industry and look ahead as to what's coming up. Whether we're taking influences from the fashion industry or brand influencers, we collaborate and design products that reach the market quickly and ready to set the next trend. When selecting materials we know how to balance aesthetic value and safety.

FUNCTIONALITY

When we bring a product to our customers we include as much usability as we can fit. Whether it's adding a hidden drawer to a nightstand or an imbedded USB plug in to a headboard, our goal is to add functionality wherever it lends itself to the design of the piece. Details like that elevate a piece of furniture beyond its aesthetic value allowing you to get the most out of an item. We want to make your life easier and more comfortable.

Most of our utility patents stem from our desire to improve the safety of a product. Futons are great products because they fill a niche and double their functionality as a seat and a bed. Our patented fold out leg hides behind the zip-down backing to quickly add stability to a futon in the lowered position, letting you lay out without worry of the futon turning over. It is innovative and practical additions like this that make our products stand out as a smarter and secure choice.

SAFETY

We do not cut any corners when it comes to safety. We pride ourselves on durability and quality control. Our products undergo extensive testing to ensure they meet or exceed all safety standards and requirements. Any that fail to pass either require design changes or will be dropped. We also make sure, all of our paint is lead free, and our foam fillers are free of carcinogenic chemicals.

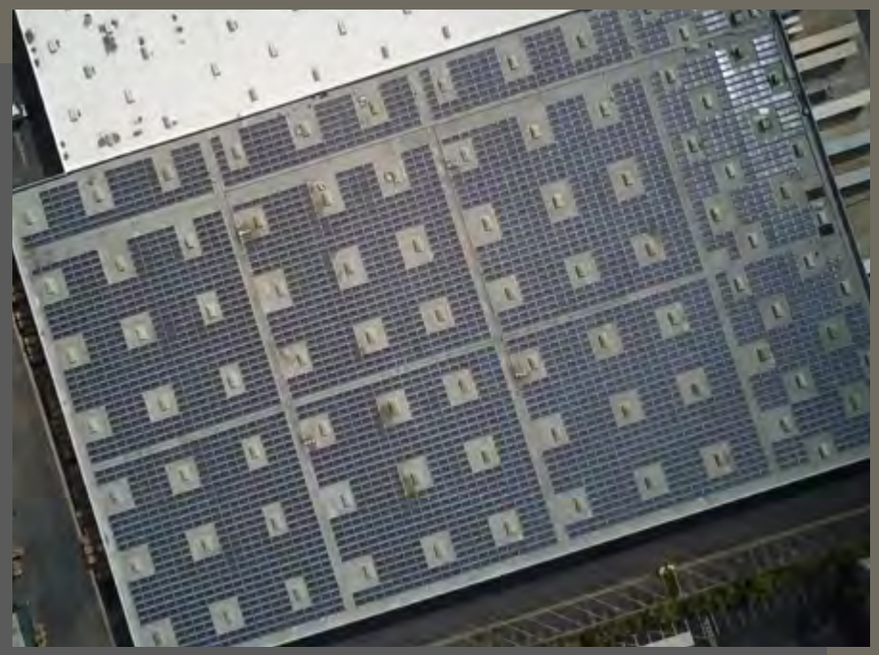

Our bunk beds achieve high marks in the industry for their safety features. We hold multiple design patents for bunk beds where our main concern is to make them more stable and durable. New designs like an embedded bracket joint structure create a pocket for the rails to fit into. Meaning your children's health and safety isn't left up to a couple of bolts, but a sophisticated metal construction.

If we can prevent injuries, we will make the changes necessary every time.

Our Commitment to Sustainability

At Furniture of America, we're doubling down on sustainability, weaving it into every aspect of our operations. From the products we craft to the practices we adopt, environmental responsibility guides our journey. Our dedication is evident in the materials we choose, with FSC and OEKO-TEX certifications ensuring eco-conscious sourcing. Embracing innovation, we've transitioned to rubberwood for our bunk beds and youth products, minimizing environmental impact without compromising quality.

Beyond product design, we've taken concrete steps to reduce our carbon footprint. Our headquarters partly run on solar energy, exemplifying our dedication to renewable resources. Furthermore, we actively promote sustainability on a personal level, encouraging employees to embrace electric vehicles for their commutes. At FOA, sustainability isn't just a goal; it's our way of doing business.

RUNNING ON RUBBERWOOD

In recent years, our factories have transitioned to using rubberwood as the primary material for our bunk beds and children's furniture. More renewable than pine, rubberwood is harvested from rubber trees that have finished their latex production, repurposing them efficiently and reducing environmental impact. This strong, dense hardwood is resistant to wear and tear, cost-effective, and adapts well to various finishes and colors, offering a wide range of styles and looks. By choosing rubberwood, we contribute to a more sustainable and eco-friendly industry.

FSC AND OEKO-TEX CERTIFIED

Since 2021, we've increased our production of FSC and OEKO-TEX certified products, underscoring our commitment to sustainability and ethics. Our greemotion® line of outdoor furniture, FSC-certified, offers timeless designs and multifunctionality, reducing the need for more purchases. Meanwhile, our new upholstery pieces are OEKO-TEX certified, prioritizing toxin-free materials and eco-friendly production, ensuring a healthier home and planet.

GOING SOLAR

Our relocation to a new headquarters in late 2023 not only marked a shift in company focus but also underscored our rededication to environmental stewardship. With solar panels covering up to fifty percent of our new building's roof space, we generate ample renewable energy to sustain our operations.

MINIMIZING OUR CARBON FOOTPRINT

In addition to our corporate efforts, we empower our team to embrace eco-conscious living. Approximately one in five FOA employees opt for electric vehicles for their daily commute. Moreover, our EV charging station facilitates sustainable transportation, with ongoing expansion plans to accommodate increasing demand.

FOA: Renewed

We've renewed our pledge to sustainability, prioritizing eco-conscious practices in our product crafting. Discover our latest upholstery and outdoor pieces, proudly FSC and OEKO-TEX certified for a greener future. We're also enhancing sustainability at corporate and personal levels by installing solar panels, adding EV chargers, and encouraging our employees to drive electric vehicles.

Clean Living Furniture Care Kit

By Furniture *of* America

PRESERVE YOUR FURNITURE. SAVE THE ENVIRONMENT.

Each of our care products is designed with the environment in mind. All formulas are water-based, non-aerosol, and produced in a solar-powered facility with a responsible water system. Use them to help extend the life of your fabric chair, leather sofa, or wooden bed. Keep your furniture longer, so in your own way you can help save the environment, too.

FURNITURE POLISH

Improves appearance of finished wood surfaces by removing dust and fingerprints

UPHOLSTERY CLEANER

Cleans tough stains on fabric, leather, and vinyl to help prolong the life of your furniture

LEATHER CONDITIONER

Aids in revitalizing your leather and vinyl furniture to its restored condition

FURNITURE PROTECTOR

Helps repel liquids, dirt, and stain from all types of furniture materials

All CLEAN LIVING FURNITURE CARE KIT PRODUCTS are made in the USA with foreign and domestic materials. See individual bottles and packaging for directions and warnings.

SKU: M-CAREKIT-A / Dimensions: 8.25” x 2” x 7.5” / Volume: 8 oz. per bottle

Furniture Care Guide

IMPORTANCE OF PROPER FURNITURE CARE

After spending so much time picking the perfect furniture for your home, you want them to look beautiful as long as you can. And that's possible with regular cleaning and care. Doing some regular maintenance will keep your furniture looking great and extend its durability. You won't find yourself thinking about buying new chairs in a few a years if they look just as good as when you bought them. If dirt and grime is left on your furniture it not only looks bad but can be abrasive to the material and cause damage to your precious furniture. Regular cleaning can also help you control allergens and odors that make living uncomfortable.

Proper care can be as simple as proper placement. Avoid placing furniture where it will be hit by sunlight for extended periods of the day as that will fade colors and cause materials to weaken and crack. Unless your furniture is made of teak or other materials resistant to temperature fluctuations do not place furniture near heat sources, i.e. heaters and radiators. Dry heat will dry the wood and shrink it, leading to cracks and a weakened construction.

With proper placement and regular care your furniture will look great and serve you for years to come.

CLEANING TIPS

WOOD

For most cleaning, lightly dampen a soft cloth with warm water and mild dish soap and rub the area. Lightly using water won't harm your furniture, avoid soaking. Avoid harsh cleaners that can damage the finish or sealer. Common blemishes on wood furniture come from hot coffee cups. If you have a white ring left over from a hot item left on your furniture, use a MILD abrasive to get it out. Use your finger for small spots or a soft cloth for large areas. If you have a scratch, shoe polish, and even walnuts, can be rubbed lightly onto a scratch to help cover up any blemishes. Remember, it is always best to rub, brush, or scrub with the grain, not against it.

LEATHER

First remove all dust from the leather area. It is easiest to use a vacuum cleaner with a brush attachment, and make sure to get into any crevices you can. Follow this up by wiping down the furniture with a cotton or microfiber cloth. Mix equal parts water and vinegar to make a simple cleaning solution. Dip the corner of a cleaning cloth into the mix and wring it out. You want a damp cloth to do all of your cleaning. Follow up your cleaning with a dry cloth, make sure you don't let your leather soak as that may ruin the material. For grease stains, wipe off the grease with a dry cloth, and then sprinkle baking soda on the area. Let it sit for a few hours to draw the grease out. Wipe away with a rag.

FABRIC

Put the upholstery attachment onto your vacuum and clean from left to right from top to bottom. The left to right motion helps loosen dirt from the upholstering. For stains, use HOT water with a bit of mild dish soap. Scrub the area, if the upholstering is above the wooden frame; do not let it soak through as it can damage the wood. If this does not get the stain out, then use steam. If you don't have a steam cleaner, you can use the steam button on an iron. The steam should kick out most stains, making it easy for you to blot out. Let the fabric air dry completely before using.

METAL

Furniture is relatively easy to clean. Remove any glass or upholstering, find a nice dry day outside and get to work. Fill a bucket with warm water, add some liquid dish soap. You'll want a nylon scrubbing brush, dip it into the soapy water and scrub down the entire piece. Use an old toothbrush to clean the grooves and corners. Rinse off the piece, use a damp sponge if your piece has fabric. Dry with a towel. For rusted areas, use a wire brush to remove the rust. Apply metal primer to the bare spots, allow it to dry. You can leave it as is or paint over it with a matching metal tone. Apply a car body wax to the metal for some protection and shine.

Assembly Guide

FURNITURE ASSEMBLY TIPS

1 - Make sure the lock or spring washer is placed between the larger flat washer and the head of the screw or bolt. Otherwise, it can damage your furniture and/or lead to unsafe assembly.
2 - Only tighten when instructed to do so. Properly aligned all parts, and then use the appropriate hand tool to tighten. Do not over tighten. If power tools are used, set at the lowest RPMs/power setting available.
3 - When separating parts/components, use caution as to not damage product. Place the contents on a carpeted or padded area to protect them from damage. Ensure furniture rests on a flat and level surface with each leg evenly touching the floor.
4 - Some furniture includes height adjustment knobs underneath each leg. Turn clockwise to lower or counter-clockwise to raise each leg.
5 - Save the instructions and any supplied tools for later maintenance. After two weeks, check and tighten any loose hardware. Repeat every six months thereafter.
6 - Any products over 30” of height must be attached to a wall. Serious injury or death may occur.

ASSEMBLY RATING

The Assembly Rating is a 5-point system that gauges the degree of difficulty to assemble a specific product (with 1 being easy and 5 being difficult). For some products, two people are recommended for safe assembly.

1	Simple assembly, usually requiring some tightening of screws. Average time for assembly: 30 minutes (10-15 minutes for professional assembly service)
2	Average time for assembly: 1-2 hours (15-30 minutes for professional assembly service)
3	Average time for assembly: 2-3 hours (30 minutes -1 hour for professional assembly service)
4	Average time for assembly: 2-4 hours (1-2 hours for professional assembly service)
5	Average time for assembly: 4+ hours (2-3 hours for professional assembly service)

Product Dimension Guide

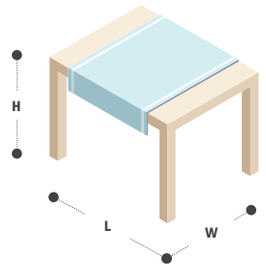

We provide accurate dimensions for our products so you can properly plan your room layout or fit it into the empty space you have at home. Catalog photos don't always give you the best perspective on size, and large showrooms can often make a piece look smaller so proper measurements will help you decide if a product is right for your home. The diagrams to the right help decipher how we measure our products so you can use painter's tape to mark out exactly how a piece will fit in a room.

Another thing to consider is how a piece will be transported into your home. Will you need to get a truck? If you live in an apartment, does it have a freight elevator? Does that beautiful Chesterfield sofa you just bought fit through your doorway? Pull out the tape measure and save yourself future disappointment.

WELCOME TO

JOSHUA TREE

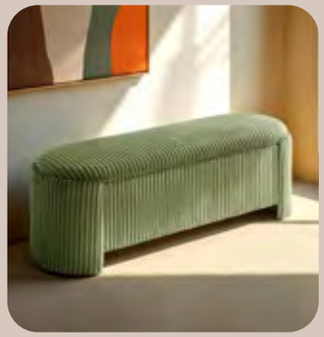

Introducing Joshua Tree, a palette inspired by the soul of the California high desert. This is a story told in the shifting light and rugged beauty of a landscape that has captivated artists for generations. From the warm *Mojave Gold* of sunlit granite to the cool, quiet darkness of *Monolith Shadow*, we've captured the serene, artistic spirit of Joshua Tree to create a sanctuary in your home—a space of peace, creativity, and timeless natural style.

DESERT OLIVE

This complex green captures the hardy, resilient spirit of the desert's most iconic flora. Desert Olive reflects the **deep, muted tones** of the Joshua Tree's branches and the dusty leaves of the Juniper bush, offering a connection to the enduring life that thrives in the arid landscape.

TRAIL DUST

Named for the fine, pale dust of the countless pathways that wind through the Joshua Tree landscape. This is the authentic color of the ground beneath your feet, the evidence of a journey taken. As our collection's foundational neutral, Trail Dust is a **warm, sandy beige** that brings a sense of grounded adventure and lived-in comfort to any space.

Mojave Gold

Named for that magical moment when the late afternoon sun transforms the landscape, Mojave Gold captures the precious, golden hues of sun-washed granite. This is not the bright shine of metal, but the **deep, earthy glow of ancient stone** basking in the day's final hours. This warm and luminous shade brings a touch of the desert's hidden treasure and serene, golden-hour warmth into your space.

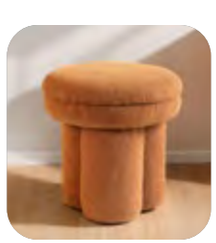

Cap Rock Umber

Directly inspired by the iconic Cap Rock formation and the timeless pigment it resembles. While Mojave Gold captures the sun's glow, Cap Rock Umber is the color of the stone itself—a **deep, rich, and steady brown**. It speaks to the enduring strength and permanence of the monument, bringing a sense of grounding stability and natural, earthy elegance into your home.

QUARTZ WHITE

This **soft, complex off-white** is named for the veins of Quartz that shimmer within Joshua Tree's granite monoliths. Far warmer than a pure white, it reflects the color of sun-bleached rock and brings a bright, natural, and earthy luminosity to any space.

MONOLITH SHADOW

Capturing the serene transition between day and night, Monolith Shadow is inspired by the deep, soft darkness that envelops Joshua Tree's granite monoliths at dawn and dusk. This **inky, grounding charcoal** is a quiet and sophisticated neutral, representing the timeless strength and profound stillness of the ancient rock formations in the peaceful light of twilight.

Morning Haze

Capturing the quietest moment of the day, Morning Haze is the color of the cool, peaceful light that settles over the desert valley at dawn. This serene, **grayish-blue** is soft and muted, bringing a sense of spaciousness and a breath of fresh, tranquil air to the collection.

Red Ochre

Named for the ancient earth pigment drawn from the mineral-rich soil of the Mojave Desert. Red Ochre is a nod to the region's deep indigenous history and the timeless art inspired by the landscape. This shade is less about fire and more about earth—a deep, **burnt red-orange** full of substance, bringing an artistic spirit and a profound sense of ancient warmth into your home.

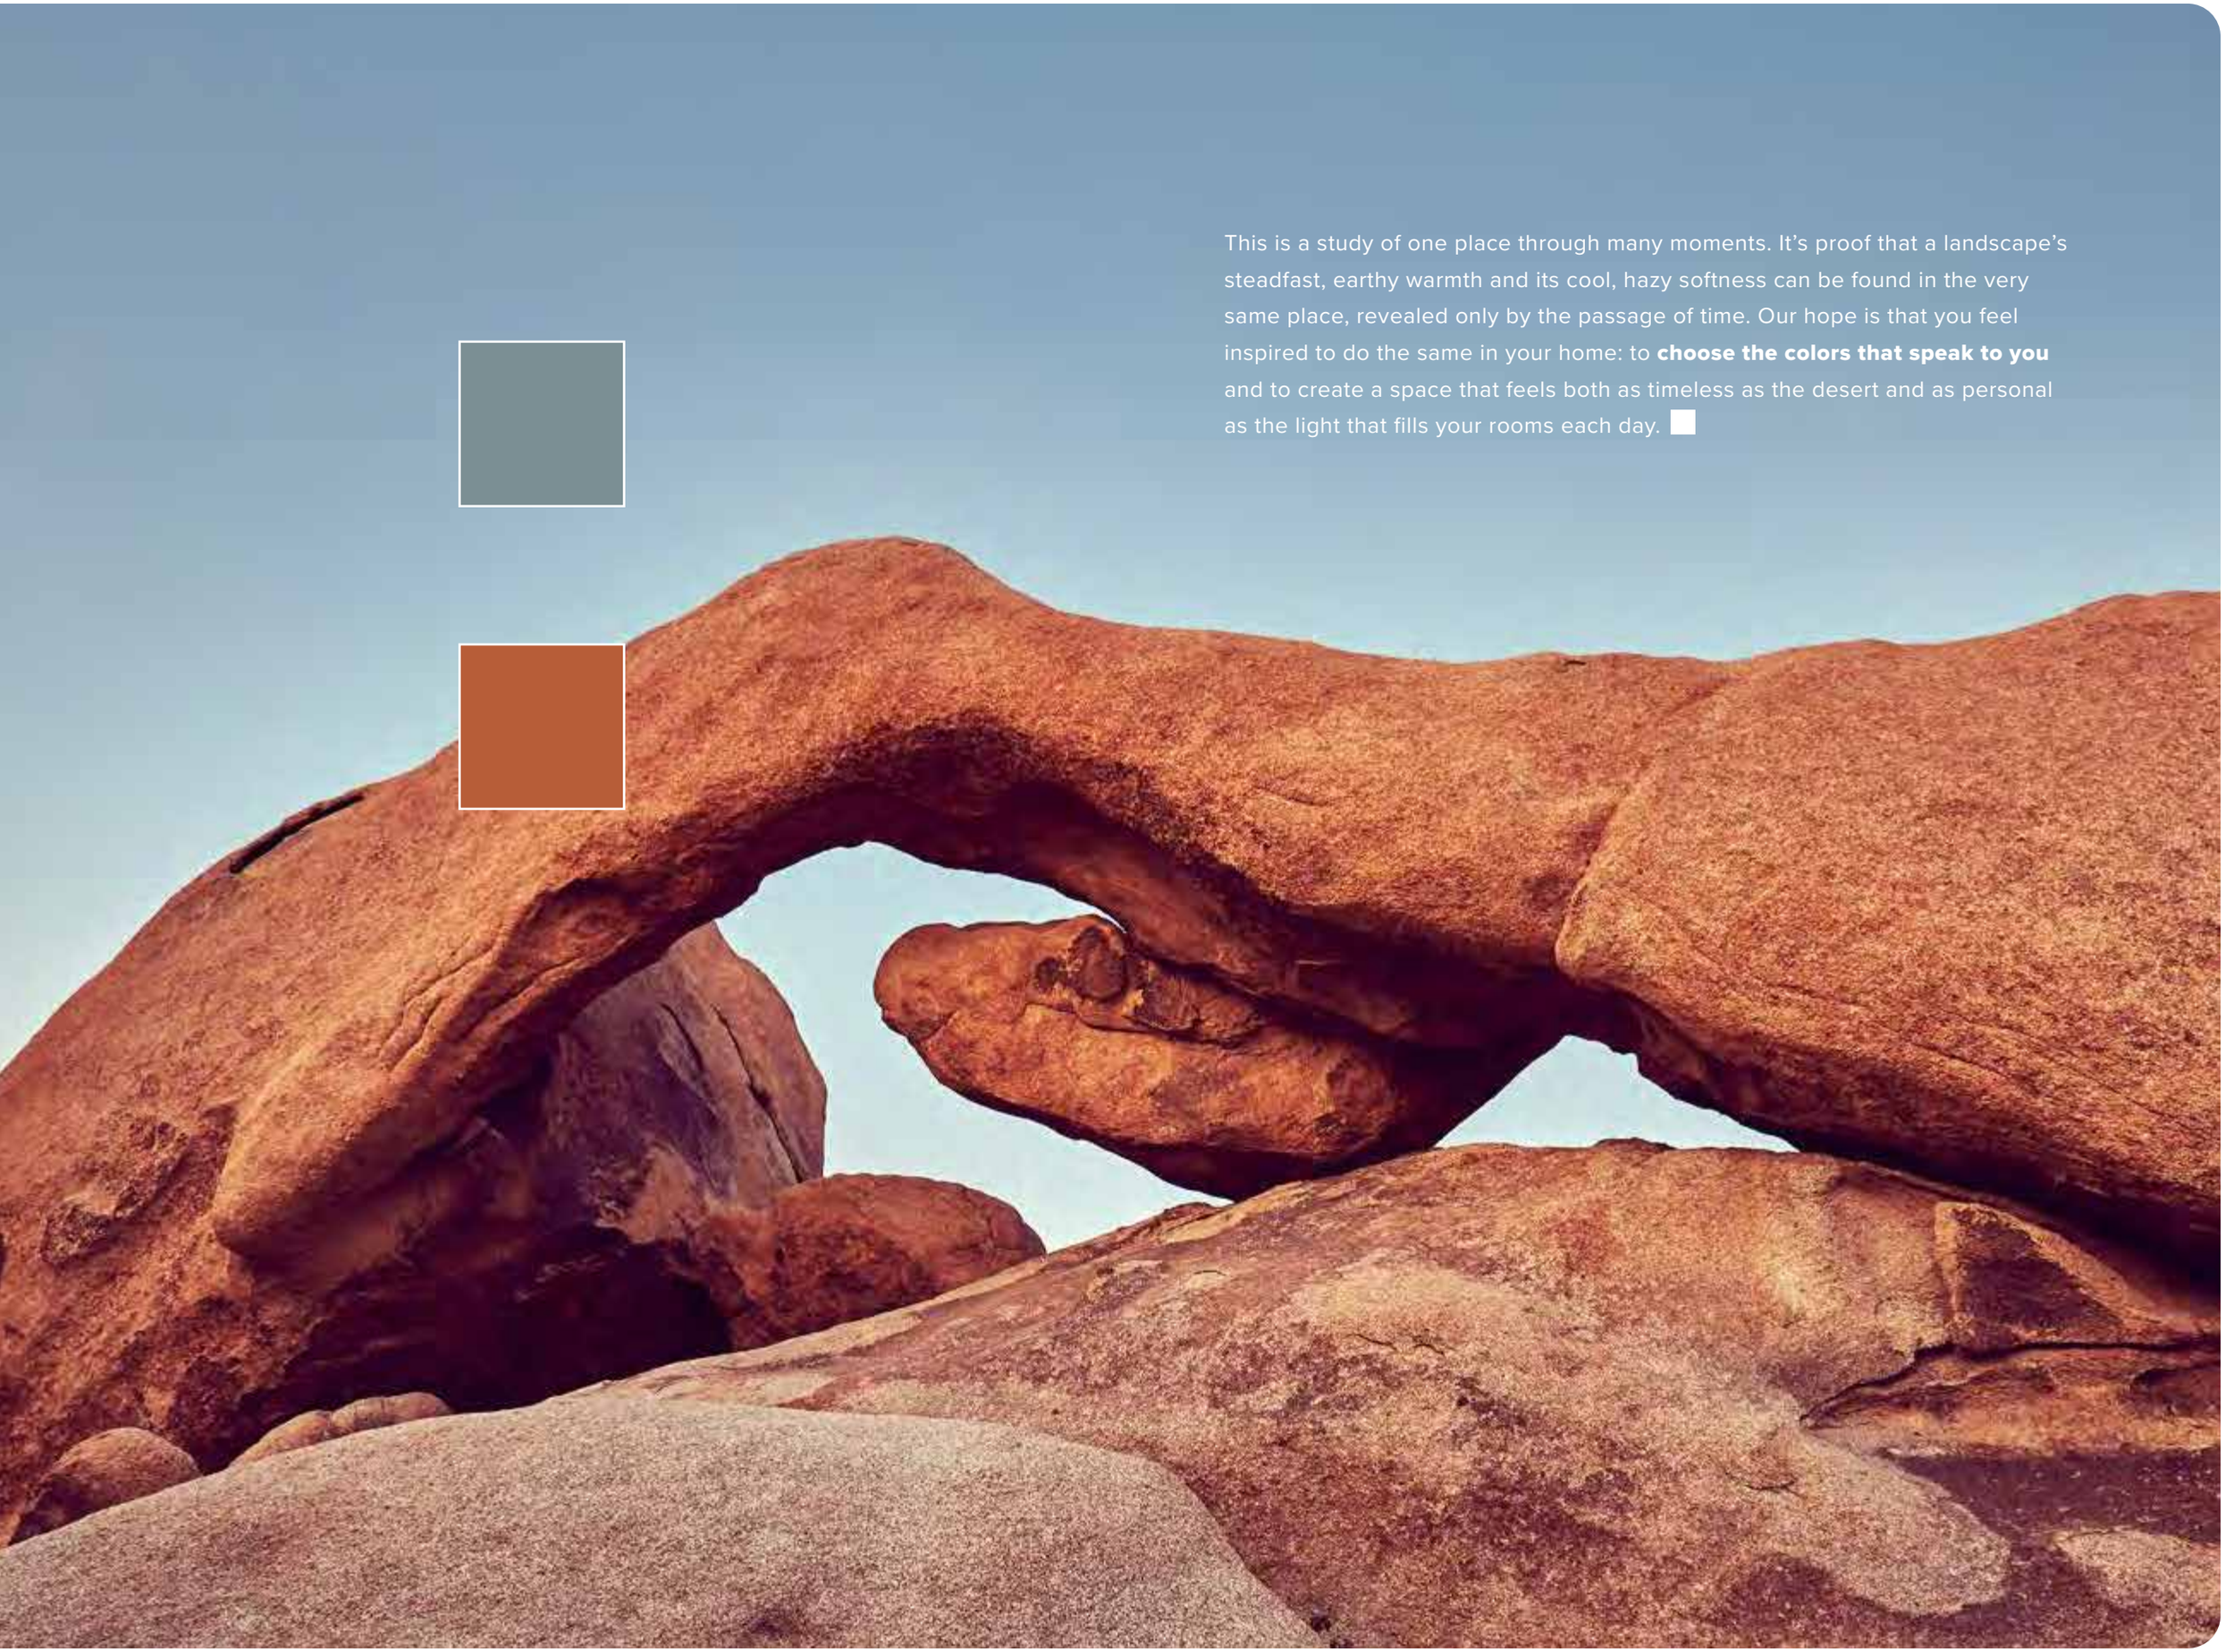

This is a study of one place through many moments. It's proof that a landscape's steadfast, earthy warmth and its cool, hazy softness can be found in the very same place, revealed only by the passage of time. Our hope is that you feel inspired to do the same in your home: to **choose the colors that speak to you** and to create a space that feels both as timeless as the desert and as personal as the light that fills your rooms each day.

Collections

For every room in every home.

Since day one, Furniture of America has been your go-to for stylish, quality, and affordable pieces. Now, we're elevating your home's look with our new 'Collections'—thoughtfully curated sets designed to seamlessly work together across rooms. Picture a home where every piece tells its own story, yet works together to create a space that's uniquely yours. With our Collections, creating a cohesive, stylish home has never been easier.

Sterling West

COLLECTION

Soft rounded edges and an ash gray multi-coat finish distinguish the Sterling West collection from others. Yet, it's the striking dented stainless steel panels that steal the spotlight, shimmering brilliantly when touched by light, illuminating any space to perfection.

Picking the Right Mattress

Studies show that the average person spends a third of their life in bed. Simply put, you owe it to yourself to get a mattress that will improve your quality of life. In addition, mattresses accumulate dust mites, fungus, and other germs that trigger allergies and impact your sleep. After years of using the same mattress, it's time to think about starting anew. Here are some tips to help you pick the right mattress for your life.

Firmness & How You Sleep

Your sleep patterns and weight are the key to finding a general firmness that is right for you. In general the more you weigh the firmer a mattress should be to provide the support you need. Combine that with these sleep positon tips to find the right fit.

Side Sleeper

You will need a soft mattress with a lot of support for your neck and back. If your mattress is too firm to conform and support your body, it'll put a lot of pressure on your back, neck, and shoulders resulting. Look for a memory foam or pillow top mattress in medium plush to plush firmness to caress you while you sleep.

Back Sleeper

You will have the pick of the bunch, but be sure it has enough support that your spine is aligned to avoid lower back pain. The perfect mattress will provide enough pressure point relief, with great support. Look at medium firm to firm mattresses, unless you want something softer.

Stomach Sleeper

Your top priority should be support. If your torso sinks at the middle, you'll find yourself with lower back pains and other problems. You need a mattress that provides equal support across the entire body. Memory foam will be too smothering so pick an innerspring or pillow top on the firm side of the spectrum.

Innerspring vs. Foam vs. Pillow Top

Innerspring Mattresses are the most popular, by far. They support you with spring coils that are individually encased within the core, atop the coils is layer of cushioning of either pillow or memory foam. These mattresses keep their shape and weather years of use. If you like a fair amount of bounce and the "classic" mattress feel, this is the type for you.

Foam Mattresses are composed of several layers of foam to provide a body hugging sleep surface. They offer great support, and pressure relief because the material shapes to your form and contours along the ridges of your body. If you tend to heat up at night, opt for a gel infused foam for superior temperature regulation and comfort.

The Pillow Top Mattress often combines both of the previous options. Innerspring coils give shape and offer that classic bounce, while an extra padded top helps increase comfort and cushion. Pillow top mattresses can be stuffed with an extra layer of pillow cushioning, but many of ours include gel or memory foam, giving you the body contouring comfort and pressure relief of a foam mattress.

These are just general ideas for the benefits of each type of mattress, what you ultimately choose will depend on your needs and comfort.

Craftsmanship honed by history, tested by time

Introducing our new line of Italian-made upholstery signature products crafted from real Italian leather. Our products embody Italian innovation and creativity, bringing relaxation and luxury to your home. Our sofas are handcrafted by skilled craftsmen, ensuring the highest quality and attention to detail.

Experience the comfort and elegance of our signature products, each meticulously designed to provide the ultimate relaxation experience. Our line features sleek, modern designs that seamlessly blend with any home decor, making them a timeless addition to any living space. With a focus on quality and craftsmanship, our products bring a touch of Italian luxury to your home.

As timeless as the skills of the hands that create them – this is the **Artiscant Signature Collection**.

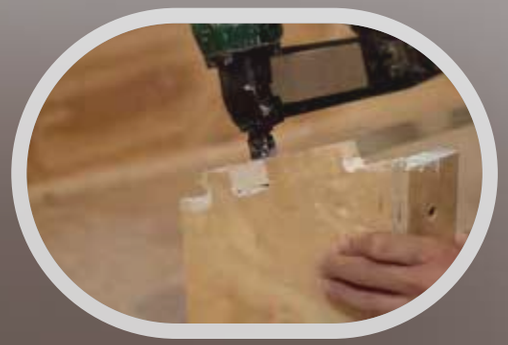

MADE IN ITALY

ARTISAN CRAFTSMANSHIP

Every detail – every cut and stitching – are made by skilled artisan hands upholding tradition while imbued with knowledge of the greatest Italian master craftsmen.

QUALITY MATERIALS

The keenest attention to detail and the finest materials make for impeccable products. From thread to woven fabric, to the padding and wood frame used, each product is ensured to meet the highest of standards.

ECO-SUSTAINABILITY

With deeply-held values of social responsibility and respect for Mother Nature, low environmental impact and energy-saving is a top priority, starting with the headquarters where products are designed, produced, and tested.

REAL ITALIAN LEATHER

Each piece in the collection is produced using world renowned Real Italian Top Grain Leather – created in Italy from the finest quality hides and tanned using particular processes passed down through generations.

BLADERICO

FM90001

Conversations flow along as easy as the simple lines and arresting silhouette of the BALDERICO. A clean, neutral palette provides the canvas for a cozy experience in between two padded pillow arms. The frame is modern and the backrests are comfortable—creating a space where plenty of thoughtful conversations could be had.

OUTDOOR

greemotion
inspired by nature
Presented by
Furniture of America

A Modern Way to Decorate and Entertain Outside

Developed in Germany and introduced here in the U.S. for the first time, **greemotion** is deeply rooted in our love of the outdoors.

Every **greemotion** piece has something special to offer — from recliners, storage, space saving, to converting into different layout configurations. They're expertly crafted from a wide variety of top- quality materials such as lightweight aluminum, durable poly-rattan, weather-resistant stainless-steel, solid wood, and easy-care plastic.

DEVELOPED IN GERMANY

With its large selection of casual and comfortable outdoor pieces and sets, **greemotion** is a welcome addition to Furniture of America's outdoor assortment. It's a comprehensive catalog with something for anyone who enjoys being close to nature, whether in their patio, backyard, balcony, or poolside.

WHY **GREEMOTION?**

Tradition meets Innovation

With over 85 years of experience and continued dedication to development of outdoor furniture, **greemotion** has become a renowned brand in Germany. Our combined passion for the outdoors and innovation is evident in each product made from a diverse range of materials – incorporating renewable wood, durable metals, and easy-care plastics.

Relaxation and Comfort

The **greemotion** collection transforms the patio, backyard, balcony, and poolside into a retreat where you can truly relax. It turns any space into an inviting and pleasant experience – perfect to share with family and friends. Enjoy the seasons as you lounge around with your loved ones on pieces that offer year-round comfort.

Quality that Convinces

Subject to systematic and exemplary quality control, **greemotion** products are tested on site during production, through quality assurance in Germany, as well as rigorous tests conducted by independent institutes. Our goal is to make products that stand the test of time – offering unparalleled functionality and design with unbeatable value.

*US made products include domestic and foreign materials. Engineered wood may include plywood, MDF and other materials. Images may vary in color due to print process or personal perceptions. Displaying Rugs

The general rule is putting an area rug down over carpet just does not work, unless you have wall-to-wall carpeting with a very low pile. If you see a stunning rug that you've got to have an artistic alternative is to hand the rug on the wall. It can make for a truly stunning décor choice.

Aside from giving you home worldly cultured appeal, hanging a rug on your wall will provide these benefits over more common wall hangings:

- Sound dampening — Perfect if you have a shared wall
- Provides thermal insulation helping keep your room warm
- Allows you to hide imperfections in your walls
- Can be used on the floor in the future
- Easy to clean — Just vacuum occasionally

Rug Pads

Rug pads have come a long way from the piece of tape you remember. They are now essential to preserve the life of your beautiful rug. Most rug pads can be cut allowing you to match the shape and size that you need.

Benefits of a rug pad include:

- Reduces the wear and tear of use
- Helps to absorb the impact of feet and noise
- Hold the rug in place, making vacuuming easy
- Protect the floor underneath from scratching by the rug backing
- Prevents dark rugs from staining light colored carpet beneath
- Adds a layer of cushion between your feet and the hard floor for a softer feel
- Prevents the rug from slipping under your feet, making it safer

Picking the Right Rug

Color & Pattern

Adaptable Solid Tones: A solid colored rug (natural or vibrant) brings a solid foundation when you want to use patterns, varying textures or colors. Match the rug to the secondary color of your patterned furniture.

Multi-Colors & Patterns: Best if your home has solid or neutral colored furniture as the artistic rug will help the furniture pop. To color coordinate, match the patterned rug's alternate color with the key furniture in the room.

Texture

A general rule with textured rugs is to use surrounding furniture as a guide. Take notice of the types of textures around the room and contrast them if you want to make your room feel layered. Something to keep in mind with textures is ease of cleaning – a shag rug in a home with pets will almost always have fur, no matter how much you vacuum.

Size

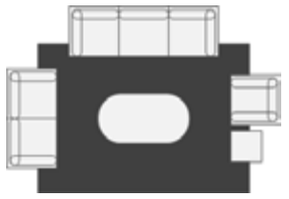

LIVING ROOM: FRONT LEGS ON RUG
Usable in all sized living areas but works best for medium sized rooms. Works best with furniture against a wall. The first 3/4ths of your furniture should be on the rug with consistent distance throughout all pieces. Makes for a well balanced seating area. Use 8' x 10'.

LIVING ROOM: COFFEE TABLE ONLY
The perfect choice for a small room, allowing you to make it look larger. Position the rug so coffee table rests atop it with 18 inches or so of empty space to each piece of furniture. A 5' x 8' rug is perfect for this.

BEDROOM
The most common rug layout is the 2/3 bed on rug, where 5' x 8' and 8' x 10' rugs will be your best friends. Position the rug to orientate with the direction of the room and not the bed. If your bed is in a corner, keep to the rule for an artistic asymmetrical design.

DINING ROOM
Rugs should extend at least 18" beyond the edge of the table to accommodate the chairs. You want all four legs of your chairs to stay on the rug even when pulled out – for visual and safety reasons.

RECOMMENDED: 8' X 10'

Famalica COLLECTION

With your hair down and your shoes off, make sure your feet feel their very best as you pace around your home. Step into comfort with these beautiful rugs made with faux rabbit fur. And don't worry—they're crafted from 100% polyester, so you can be sure that no adorable critters were harmed in making these rugs. With bright solid colors and tie-dye designs reminiscent of the carefree years of the 60s and 70s, they'll bring a burst of life into any room.

Neath RG-PAD

A rug is only good if it stays where it is placed. After finally making your decision on a perfect complement to your décor, the last thing you need is lifting corners or your accent rug slowly sliding further and further under the sofa. The Neath rug pad is made from polypropylene, giving it a natural cling without any sticky mess, and it won’t stain or ruin the flooring you have underneath your rug. This product can be used on hard wood, tile and even carpet, letting you lay down your rugs precisely where you want them and keeping them there. No more unsightly angles, wrinkling, or worse tripping over a folded corner. Compatible with our entire selection of rugs!

Payas COLLECTION

What makes this a collection is not the designs but the manufacturing process. The state-of-the-art curated system can create a myriad of colors, shadings, and textures. This method gives character to each piece and is capable of a handmade look with distressed details without costing the same as being handmade. Add a touch of authenticity to your home.

STYLE Contemporary
MATERIAL Polyester

Vengof COLLECTION

Modern color palette and curvaceous lines combine to make a collection of pieces that gleam with dramatic flair. The swirling pieces offer a line breaking pattern to the room and help break the rigidity with organic shape. Splashes of brighter color boost the effect of the patterns and draw attention towards the rug.

STYLE Contemporary

5' X 7'

RED [RG5222]

TURQUOISE [RG5223]

GRAY/PURPLE [RG5224]

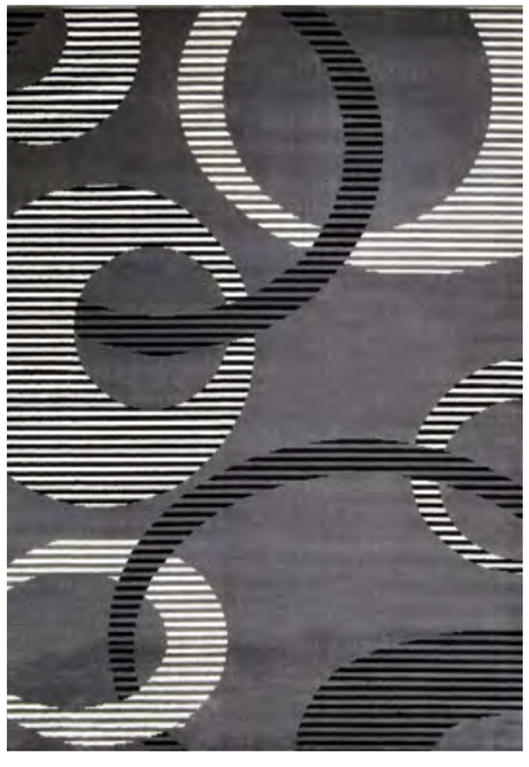

Blitar COLLECTION

This enticing rug collection is highlighted abstract and digital abstract shapes and forms. The coffee color palette of varying shades of brown, creamy whites, and deep grays and blacks ground the set in neutral tones to contract the swirls and lopping patterns. The ensemble strikes a lovely balance of color and shape.

BROWN [RG5215]

Sivas COLLECTION

A beautiful assortment of contemporary patterns and colors makes the Sivas Collection the perfect choice for a modern home décor. Whether you select a static combination of charcoal, grays, and deep color accents or the contemporary art geometrics this collection fits nicely as accent piece cresting out from beneath your furniture. Or go bold and display it prominently as a center piece.

Abbey COLLECTION

The kids will love this colorful rug! Each piece is made of 100% high quality soft nylon with non-slip cross pattern backing for hard surfaces. The kids will for sure roll around these rugs, so they feature a thick cushioned gel backing for extra comfort. A new 16 color combo technology was utilized to create bright and vivid details. Light weight for easy cleaning, the surged edges are reinforced for durability.
